IT EXECUTIVE

Driven and results-oriented IT Executive/System Developer with one year of experience managing IT operations and developing scalable software solutions. Skilled in system analysis, troubleshooting, and application development. Committed to leveraging technical expertise to improve business processes and enhance system efficiency

---

PROFESSIONAL EXPERIENCES

Ravenatic Sdn Bhd   *August 2024 - Present*
IT Executive

- Develop responsive, high-performance web applications using PHP, Angular, TypeScript, and Bootstrap.
- Write clean, scalable code; test and debug for performance and reliability.
- Maintain software and security systems; manage deployment processes.
- Create technical documentation and conduct staff training.
- Support installation, configuration, and maintenance of systems and applications.
- Monitor and optimize IT systems performance and service quality.

Ravenatic Sdn Bhd   *August 2023 - July 2024*
Protege (IT Assistant)

- Designed and developed internal company systems.
- Installed, configured, and maintained IT infrastructure, including hardware and software.
- Provided technical support and troubleshooting for hardware and software issues.
- Documented technical processes and procedures.
- Set up and configured workstations and meeting room equipment.
- Assisted with ad-hoc tasks assigned by the supervisor.

HeiTech Padu Berhad   *September 2022 - January 2023*
Internship

- Designed, developed, and maintained mobile applications, primarily for Android.
- Tested, debugged, and optimized code to meet client specifications and performance standards.
- Enhanced applications based on client feedback and usability testing.
- Collaborated with QA teams to improve user experience.

EDUCATIONS

Universiti Teknologi Mara (UiTM) at Jasin, Melaka   *September 2019 - February 2023*
Bachelor in Computer Science (Hons.)

Politeknik Ungku Omar at Ipoh, Perak   *June 2016 - May 2019*
Diploma in Information Technology (Digital Technology)

ACHIEVEMENTS

Ravenatic Website and Leave Management System   *2023 - 2024*
Ravenatic Sdn Bhd
IT Executive and Protege
The Ravenatic Website and Leave Management System is a tool for handling employee leave requests. Employees can request time off through the website, and supervisors can approve or deny these requests online. The system keeps track of leave balances and helps HR managers monitor leave usage. It simplifies the leave management process, making it easier for everyone involved.

Detection of Coffee Leaves using Convolutional Neural Network   *2022*
Final Year Project (FYP)
Bachelor
The project uses Convolutional Neural Network (CNN) algorithms to spot and sort out diseases in coffee leaves. By looking at the textures and appearance of coffee leaves, it can tell if they're healthy or affected by Coffee Leaf Rust or Coffee Leaf Miner. The goal is to create a mobile app that can help detect these issues with coffee plants.

SKILLS

Technical Skills
- Programming languages (Java, Python, C++, PHP)
- Web development (HTML, CSS, JavaScript, TypeScript, Bootstrap, Angular)
- Database management (SQL, MySQL, phpMyAdmin)
- Software proficiency (Microsoft Office, VS Code, Microsoft Visual Studio, GitHub, Jupyter Notebook, Canva)

Soft Skills
- Communication skills
- Time management
- Team collaboration
- Problem-solving
